Author Index

A

Abboud, F. M. *See* Floras, Aylward, Victor, Mark, and Abboud.

Abrams, W. *See* Wachtfogel, Abrams, Kucich, Weinbaum, Schapira, and Colman.

Ackermann, D. M. *See* Edwards, Ackermann, Lee, Reeder, Wold, and Burnett.

Adachi, A.-M. *See* Le Blanc, Roncari, Hoar, and Adachi.

Adamson, J. W. *See* Kaushansky, Lin, and Adamson.

Adelman, B. *See* Asch, Adelman, Fujimoto, and Nachman.

—, *See* Michelson, Adelman, Barnard, Carroll, and Handin.

Adler, W. H. *See* Nagel, Chopra, Chrest, McCoy, Schneider, Holbrook, and Adler.

Agre, P. *See* Waugh and Agre.

Akhtar, M. *See* Mahmud, Denker, Tchou, Jazayeri, and Akhtar.

Albert, E. *See* Melms, Schalke, Kirchner, Müller-Hermelink, Albert, and Wekerle.

Alberti, K. G. M. M. *See* Ho, Veldhuis, Johnson, Furlanetto, Evans, Alberti, and Thorner.

Alexander, R. W. *See* Fish, Nabel, Selwyn, Ludmer, Mudge, Kirshenbaum, Schoen, Alexander, and Ganz.

Allen, R. H. *See* Stabler, Marcell, Podell, Allen, Savage, and Lindenbaum.

Alpern, R. J. *See* Krapf, Berry, Alpern, and Rector.

Alpers, D. H. *See* Go, Schonfeld, Pfleger, Cole, Sussman, and Alpers.

Alpini, G., Lenzi, R., Sarkozi, L., and Tavoloni, N. Biliary physiology in rats with bile ductular cell hyperplasia. Evidence for a secretory function of proliferated bile ductules. 569.

Ambrogio, C. *See* Karpatkin, Pearlstein, Ambrogio, and Coller.

Ando, Y., Jacobson, H. R., and Breyer, M. D. Phorbol ester and A23187 have additive but mechanistically separate effects on vasopressin action in rabbit collecting tubule. 1578.

Andrews, R. G. *See* Berenson, Andrews, Bensinger, Kalamasz, Knitter, Buckner, and Bernstein.

Anhalt, G. J. *See* Morrison, Labib, Zone, Diaz, and Anhalt.

Antony, A. C. *See* Kane, Elwood, Portillo, Antony, Najfeld, Finley, Waxman, and Kolhouse.

Aoki, T. *See* Kelley, Mitrakou, Marsh, Schwenk, Benn, Sonnenberg, Arcangeli, Aoki, Sorensen, Berger, Sonksen, and Gerich.

Arai, H. *See* Sugawara, Nakao, Morii, Yamada, Itoh, Shiono, Saito, Mukoyama, Arai, Nishimura, Obata, Yasue, Ban, and Imura.

Araki, K. *See* Umadome, Uchiyama, Hori, Tamori, Motoi, Araki, and Uchino.

Arcangeli, M. *See* Kelley, Mitrakou, Marsh, Schwenk, Benn, Sonnenberg, Arcangeli, Aoki, Sorensen, Berger, Sonksen, and Gerich.

Arey, B. J. *See* Schwarz, Arey, Tolman, and Mahanty.

Arfors, K.-E. *See* Vedder, Winn, Rice, Chi, Arfors, and Harlan.

Argov, Z., Renshaw, P. F., Boden, B., Winokur, A., and Bank, W. J. Effects of thyroid hormones on skeletal muscle bioenergetics. In vivo phosphorus-31 magnetic resonance spectroscopy study of humans and rats. 1695.

Arnaud, C. *See* Krakower, James, Arnaud, Etienne, Keller, and Kissebah.

Asch, A. S., Adelman, B., Fujimoto, M., and Nachman, R. L. Identification and isolation of a platelet GPIb-like protein in human umbilical vein endothelial cells and bovine aortic smooth muscle cells. 1600.

Atkinson, Y. H., Marasco, W. A. Lopez, A. F., and Vadas, M. A. Recombinant human tumor necrosis factor-α. Regulation of *N*-formylmethionylleucylphenylalanine receptor affinity and function on human neutrophils. 759.

Aufdemorte, T. B. *See* Yates, Gutierrez, Smolens, Travis, Katz, Aufdemorte, Boyce, Hymer, Poser, and Mundy.

Austen, K. F. *See* Rothenberg, Owen, Silberstein, Woods, Soberman, Austen, and Stevens.

—, *See* Yoshimoto, Soberman, Spur, and Austen.

Averbuch, S. D., Boldt, M., Gaudiano, G., Stern, J. B., Koch, T. H., and Bachur, N. R. Experimental chemotherapy-induced skin necrosis in swine. Mechanistic studies of anthracycline antibiotic toxicity and protection with a radical dimer compound. 142.

Aylward, P. E. *See* Floras, Aylward, Victor, Mark, and Abboud.

B

Bachur, N. R. *See* Averbuch, Boldt, Gaudiano, Stern, Koch, and Bachur.

Badger, T. M. *See* Finkelstein, Badger, O'Dea, Spratt, and Crowley.

Badr, K. F., Schreiner, G. F., Wasserman, M., and Ichikawa, I. Preservation of the glomerular capillary ultrafiltration coefficient during rat nephrotoxic serum nephritis by a specific leukotriene D_4 receptor antagonist. 1702.

Baggiolini, M. *See* Thelen, Wolf, and Baggiolini.

Balaban, R. *See* Star, Nonoguchi, Balaban, and Knepper.

Ballou, B. *See* Vlock, Scalise, Meglin, Kirkwood, and Ballou.

Ban, T. *See* Sugawara, Nakao, Morii, Yamada, Itoh, Shiono, Saito, Mukoyama, Arai, Nishimura, Obata, Yasue, Ban, and Imura.

Bander, N. H. *See* Ikeda, Mangin, Dreyer, Webb, Posillico, Stewart, Bander, Weir, Insogna, and Broadus.

—, *See* Weir, Insogna, Brownstein, Bander, and Broadus.

Bank, W. J. *See* Argov, Renshaw, Boden, Winokur, and Bank.

Bar, R. S., Boes, M., and Sandra, A. Vascular transport of insulin to rat cardiac muscle. Central role of the capillary endothelium. 1225.

Baracos, V. *See* Goldberg, Kettelhut, Furuno, Fagan, and Baracos.

Bariety, J. *See* Lacombe, Da Silva, Bruneval, Fournier, Wendling, Casadevall, Camilleri, Bariety, Varet, and Tambourin.

Barnard, M. R. *See* Michelson, Adelman, Barnard, Carroll, and Handin.

Barry, W. H. *See* Ishida, Kohmoto, Bridge, and Barry.

Bashan, N., Hagai, Y., Potashnik, R., and Moses, S. W. Impaired carbohydrate metabolism of polymorphonuclear leukocytes in glycogen storage disease Ib. 1317.

Bass, D. A. *See* Caldwell, McCall, Hendricks, Leone, Bass, and McPhail.

Beavers, T. L. *See* Diasio, Beavers, and Carpenter.

Beccaria, L. *See* Liddle, Rushakoff, Morita, Beccaria, Carter, and Goldfine.

Beebe, C. *See* Polonsky, Given, Hirsch, Shapiro, Tillil, Beebe, Galloway, Frank, Karrison, and Van Cauter.

Benedict, S. H. *See* Hara, Benedict, Champagne, Mak, Minden, and Gelfand.

Beninger, P. R., Chikami, G., Tanabe, K., Roudier, C., Fierer, J., and Guiney, D. G. Physical and genetic mapping of the *Salmonella dublin* virulence plasmid pSDL2. Relationship to plasmids from other *Salmonella* strains. 1341.

Benn, J. *See* Kelley, Mitrakou, Marsh, Schwenk, Benn, Sonnenberg, Arcangeli, Aoki, Sorensen, Berger, Sonksen, and Gerich.

Bennett, J. S. *See* Sosnoski, Emanuel, Hawkins, van Tuinen, Ledbetter, Nussbaum, Kaos, Schwartz, Phillips, Bennett, Fitzgerald, and Poncz.

—, *See* Zimrin, Eisman, Vilaire, Schwartz, Bennett, and Poncz.

Bensch, K. *See* Levitt, Reyes, Moonka, Bensch, Miller, and Engleman.

Bensinger, W. I. *See* Berenson, Andrews, Bensinger, Kalamasz, Knitter, Buckner, and Bernstein.

Benson, M. D. *See* Wallace, Dwulet, Williams, Conneally, and Benson.

Berenson, R. J., Andrews, R. G., Bensinger, W. I., Kalamasz, D., Knitter, G., Buckner, C. D., and Bernstein, I. D. Antigen $CD34^+$ marrow cells engraft lethally irradiated baboons. 951.

Berger, E. M. *See* Patt, Harken, Burton, Rodell, Piermattei, Schorr, Parker, Berger, Horesh, Terada, Linas, Cheronis, and Repine.

Berger, M. *See* Kelley, Mitrakou, Marsh, Schwenk, Benn, Sonnenberg, Arcangeli, Aoki, Sorensen, Berger, Sonksen, and Gerich.

Berkow, R. L. *See* Curnutte, Berkow, Roberts, Shurin, and Scott.

Berliner, J. A. *See* Navab, Hough, Van Lenten, Berliner, and Fogelman.

Bernar, J. *See* Gahl, Bernardini, Dalakas, Rizzo, Harper, Hoeg, Hurko, and Bernar.

Bernardini, I. *See* Gahl, Bernardini, Dalakas, Rizzo, Harper, Hoeg, Hurko, and Bernar.

—, *See* Gahl, Bernardini, Finkelstein, Tangerman, Martin, Blom, Mullen, and Mudd.

Berne, R. M. *See* Lasley, Ely, Berne, and Mentzer.

Bernstein, I. D. *See* Berenson, Andrews, Bensinger, Kalamasz, Knitter, Buckner, and Bernstein.
Berry, C. A. *See* Krapf, Berry, Alpern, and Rector.
Bierer, B. E., Nishimura, Y., Burakoff, S. J., and Smith, B. R. Phenotypic and functional characterization of human cytolytic T cells lacking expression of CD5. 1390.
Bilheimer, D. W. *See* Koo, Wernette-Hammond, Garcia, Malloy, Uauy, East, Bilheimer, Mahley, and Innerarity.
Bird, J. E., Milhoan, K., Wilson, C. B., Young, S. G., Mundy, C. A., Parthasarathy, S., and Blantz, R. C. Ischemic acute renal failure and antioxidant therapy in the rat. The relation between glomerular and tubular dysfunction. 1630.
Bjorkman, O., Miles, P., Wasserman, D., Lickley, L., and Vranic, M. Regulation of glucose turnover during exercise in pancreatectomized, totally insulin-deficient dogs. Effects of β-adrenergic blockade. 1759.
Bjornsson, T. D. *See* Kuo, Korner, and Bjornsson.
Blättler, W. A. *See* Scott, Blättler, Lambert, Kalish, Morimoto, and Schlossman.
Black, J. *See* Pannell, Black, and Gurewich.
Blantz, R. C. *See* Bird, Milhoan, Wilson, Young, Mundy, Parthasarathy, and Blantz.
Blaser, M. J., Smith, P. F., Repine, J. E., and Joiner, K. A. Pathogenesis of *Campylobacter fetus* infections. Failure of encapsulated *Campylobacter fetus* to bind C3b explains serum and phagocytosis resistance. 1434.
Blizzard, R. M. *See* Urban, Veldhuis, Blizzard, and Dufau.
Bloch, K. D. *See* Lee, Bloch, Pfeffer, Pfeffer, Neer, and Seidman.
Blom, H. J. *See* Gahl, Bernardini, Finkelstein, Tangerman, Martin, Blom, Mullen, and Mudd.
Bluestein, H. G. *See* Pischel, Bluestein, and Woods.
Bochner, B. S., Peachell, P. T., Brown, K. E., and Schleimer, R. P. Adherence of human basophils to cultured umbilical vein endothelial cells. 1355.
Boden, B. *See* Argov, Renshaw, Boden, Winokur, and Bank.
Boden, G., Fujita-Yamaguchi, Y., Shimoyama, R., Shelmet, J. J., Tappy, L., Rezvani, I., and Owen, O. E. Nonbinding inhibitory antiinsulin receptor antibodies. A new type of autoantibodies in human diabetes. 1971.
—, *See* D'Alessio, Kavle, Mozzoli, Smalley, Polansky, Kendrick, Owen, Bushman, Boden, and Owen.
—, *See* Shelmet, Reichard, Skutches, Hoeldtke, Owen, and Boden.
Boes, M. *See* Bar, Boes, and Sandra.
Bohnsack, J. F. *See* Brown, Bohnsack, and Gresham.
Boldt, M. *See* Averbuch, Boldt, Gaudiano, Stern, Koch, and Bachur.
Bomsztyk, K., and Calalb, M. B. Bicarbonate absorption stimulates active calcium absorption in the rat proximal tubule. 1455.

Borg, J. Y., Owen, M. C., Soria, C., Soria, J., Caen, J., and Carrell, R. W. Proposed heparin binding site in antithrombin based on arginine 47. A new variant Rouen-II, 47 Arg to Ser. 1292.
Borson, D. B. *See* Sheppard, Thompson, Scypinski, Dusser, Nadel, and Borson.
Boska, M. D. *See* Miller, Boska, Moussavi, Carson, and Weiner.
Bossaller, C. *See* Yamamoto, Bossaller, Cartwright, and Henry.
Bouillon, R. *See* Goldschmidt-Clermont, Van Baelen, Bouillon, Shook, Williams, Nel, and Galbraith.
Boyce, B. F. *See* Yates, Gutierrez, Smolens, Travis, Katz, Aufdemorte, Boyce, Hymer, Poser, and Mundy.
Brater, D. C. *See* de Zeeuw, Jacobson, and Brater.
Brewer, H. B., Jr. *See* Ross, Gregg, Law, Monge, Grant, Higuchi, Triche, Jefferson, and Brewer.
Breyer, M. D. *See* Ando, Jacobson, and Breyer.
Briët, E. *See* Verweij, Quadt, Briët, Dubbeldam, van Ommen, and Pannekoek.
Bridge, J. H. B. *See* Ishida, Kohmoto, Bridge, and Barry.
Briggaman, R. A. *See* Woodley, Burgeson, Lunstrum, Bruckner-Tuderman, Reese, and Briggaman.
Bril, V. *See* Sima, Nathaniel, Bril, McEwen, and Greene.
Britigan, B. E., Klapper, D., Svendsen, T., and Cohen, M. S. Phagocyte-derived lactate stimulates oxygen consumption by *Neisseria gonorrhoeae*. An unrecognized aspect of the oxygen metabolism of phagocytosis. 318.
Broadus, A. E. *See* Ikeda, Mangin, Dreyer, Webb, Posillico, Stewart, Bander, Weir, Insogna, and Broadus.
—, *See* Stewart, Mangin, Wu, Goumas, Insogna, Burtis, and Broadus.
—, *See* Weir, Insogna, Brownstein, Bander, and Broadus.
Brody, L. C. *See* Mitchell, Brody, Looney, Steel, Suchanek, Dowling, Der Kaloustian, Kaiser-Kupfer, and Valle.
Brown, E. J., Bohnsack, J. F., and Gresham, H. D. Mechanism of inhibition of immunoglobulin G-mediated phagocytosis by monoclonal antibodies that recognize the Mac-1 antigen. 365.
Brown, J. M., Terada, L. S., Grosso, M. A., Whitmann, G. J., Velasco, S. E., Patt, A., Harken, A. H., and Repine, J. E. Xanthine oxidase produces hydrogen peroxide which contributes to reperfusion injury of ischemic, isolated, perfused rat hearts. 1297.
Brown, K. E. *See* Bochner, Peachell, Brown, and Schleimer.
Brown, M. S. *See* Hobbs, Leitersdorf, Goldstein, Brown, and Russell.
Brownstein, D. G. *See* Weir, Insogna, Brownstein, Bander, and Broadus.
Bruckner-Tuderman, L. *See* Woodley, Burgeson, Lunstrum, Bruckner-Tuderman, Reese, and Briggaman.
Brul, S., Westerveld, A., Strijland, A., Wanders, R. J. A., Schram, A. W., Heymans, H. S. A., Schutgens, R. B. H., van den Bosch, H., and Tager, J. M. Genetic heterogeneity in the cerebrohepatorenal (Zellweger) syndrome and other inherited disorders with a generalized impairment of peroxisomal functions. A study using complementation analysis. 1710.
Bruneval, P. *See* Lacombe, Da Silva, Bruneval, Fournier, Wendling, Casadevall, Camilleri, Bariety, Varet, and Tambourin.
Brzozowski, T. *See* Tarnawski, Brzozowski, Sarfeh, Krause, Ulich, Gergely, and Hollander.
Buckner, C. D. *See* Berenson, Andrews, Bensinger, Kalamasz, Knitter, Buckner, and Bernstein.
Budayr, A. *See* Fraser, Sarnacki, and Budayr.
Bunting, P. *See* Condra, Leidy, Bunting, Colton, Nutt, Rosenblatt, and Jacobs.
Burakoff, S. J. *See* Bierer, Nishimura, Burakoff, and Smith.
Burg, M. B., and Kador, P. F. Sorbitol, osmoregulation, and the complications of diabetes. 635.
Burgeson, R. E. *See* Woodley, Burgeson, Lunstrum, Bruckner-Tuderman, Reese, and Briggaman.
Burman, P. *See* Karlsson, Burman, Lööf, and Mårdh.
Burnett, J. C., Jr. *See* Edwards, Ackermann, Lee, Reeder, Wold, and Burnett.
Burtis, W. J. *See* Stewart, Mangin, Wu, Goumas, Insogna, Burtis, and Broadus.
Burton, L. K. *See* Patt, Harken, Burton, Rodell, Piermattei, Schorr, Parker, Berger, Horesh, Terada, Linas, Cheronis, and Repine.
Bushman, M. C. *See* D'Alessio, Kavle, Mozzoli, Smalley, Polansky, Kendrick, Owen, Bushman, Boden, and Owen.

C

Caen, J. *See* Borg, Owen, Soria, Soria, Caen, and Carrell.
Calalb, M. B. *See* Bomsztyk and Calalb.
Caldwell, S. E., McCall, C. E., Hendricks, C. L., Leone, P. A., Bass, D. A., and McPhail, L. C. Coregulation of NADPH oxidase activation and phosphorylation of a 48-kD protein(s) by a cytosolic factor defective in autosomal recessive chronic granulomatous disease. 1485.
Camilleri, J.-P. *See* Lacombe, Da Silva, Bruneval, Fournier, Wendling, Casadevall, Camilleri, Bariety, Varet, and Tambourin.

Twenty-four-hour profiles and pulsatile patterns of insulin secretion in normal and obese subjects. *K. S. Polonsky, B. D. Given, and E. Van Cauter* 442

Activation of Ca^{2+}-dependent K^+ channels in human B lymphocytes by anti-immunoglobulin. *S. L. MacDougall, S. Grinstein, and E. W. Gelfand* 449

Tumor necrosis factor expression in human epithelial tumor cell lines. *D. R. Spriggs, K. Imamura, C. Rodriguez, E. Sariban, and D. W. Kufe* 455

Increased renal catabolism of 1,25-dihydroxyvitamin D_3 in murine X-linked hypophosphatemic rickets. *H. S. Tenenhouse, A. Yip, and G. Jones* 461

Elevation of total homocysteine in the serum of patients with cobalamin or folate deficiency detected by capillary gas chromatography–mass spectrometry. *S. P. Stabler, P. D. Marcell, E. R. Podell, R. H. Allen, D. G. Savage, and J. Lindenbaum* 466

Major parietal cell antigen in autoimmune gastritis with pernicious anemia is the acid-producing H^+,K^+-adenosine triphosphatase of the stomach. *F. A. Karlsson, P. Burman, L. Lööf, and S. Mårdh* 475

Expression of crossreactive idiotypes by human antibodies specific for the capsular polysaccharide of *Hemophilus influenzae* B. *A. H. Lucas* 480

Interleukin 1: a mitogen for human vascular smooth muscle cells that induces the release of growth-inhibitory prostanoids. *P. Libby, S. J. C. Warner, and G. B. Friedman* 487

Glucocorticoid regulation of insulin receptor gene transcription in IM-9 cultured lymphocytes. *A. R. McDonaid and I. D. Goldfine* 499

Platelet glycoproteins Ia, Ic, and IIa are physicochemically indistinguishable from the very late activation antigens adhesion-related proteins of lymphocytes and other cell types. *K. D. Pischel, H. G. Bluestein, and V. L. Woods, Jr.* 505

B lymphocytes from X-linked agammaglobulinemia. Delayed expression of light chain and demonstration of Lyonization in carriers. *J. Schwaber, J. Payne, and R. Chen* 514

Interactions of spectrin in hereditary elliptocytes containing truncated spectrin β-chains. *S. W. Eber, S. A. Morris, W. Schröter, and W. B. Gratzer* 523

Neutrophil adherence to human endothelium in vitro occurs by CDw18 (Mo1, MAC-1/LFA-1/GP 150,95) glycoprotein-dependent and -independent mechanisms. *G. A. Zimmerman and T. M. McIntyre* 531

Human T cell leukemia virus-I-associated T-suppressor cell inhibition of erythropoiesis in a patient with pure red cell aplasia and chronic Tγ-lymphoproliferative disease. *L. J. Levitt, G. R. Reyes, D. K. Moonka, K. Bensch, R. A. Miller, and E. G. Engleman* 538

Oral carnitine therapy in children with cystinosis and renal Fanconi syndrome. *W. A. Gahl, I. Bernardini, M. Dalakas, W. B. Rizzo, G. S. Harper, J. M. Hoeg, O. Hurko, and J. Bernar* 549

Lipoprotein metabolism during acute inhibition of lipoprotein lipase in the cynomolgus monkey. *I. J. Goldberg, N.-A. Le, H. N. Ginsberg, R. M. Krauss, and F. T. Lindgren* 561

Biliary physiology in rats with bile ductular cell hyperplasia. Evidence for a secretory function of proliferated bile ductules. *G. Alpini, R. Lenzi, L. Sarkozi, and N. Tavoloni* 569

Kniest dysplasia is characterized by an apparent abnormal processing of the C-propeptide of type II cartilage collagen resulting in imperfect fibril assembly. *A. R. Poole, I. Pidoux, A. Reiner, L. Rosenberg, D. Hollister, L. Murray, and D. Rimoin* 579

Rapid Publications

Homozygous hypobetalipoproteinemia: a disease distinct from abetalipoproteinemia at the molecular level. *R. S. Ross, R. E. Gregg, S. W. Law, J. C. Monge, S. M. Grant, K. Higuchi, T. J. Triche, J. Jefferson, and H. B. Brewer, Jr.* 590

Synthetic human parathyroid hormone–like protein stimulates bone resorption and causes hypercalcemia in rats. *A. F. Stewart, M. Mangin, T. Wu, D. Goumas, K. L. Insogna, W. J. Burtis, and A. E. Broadus* 596

Low density lipoproteins transfer bacterial lipopolysaccharides across endothelial monolayers in a biologically active form. *M. Navab, G. P. Hough, B. J. Van Lenten, J. A. Berliner, and A. M. Fogelman* 601

Chronic granulomatous disease due to a defect in the cytosolic factor required for nicotinamide adenine dinucleotide phosphate oxidase activation. *J. T. Curnutte, R. L. Berkow, R. L. Roberts, S. B. Shurin, and P. J. Scott* 606

Relation of mesangial IgA glomerulonephritis to polymorphism of immunoglobulin heavy chain switch region. *A. G. Demaine, M. Rambausek, J. F. Knight, D. G. Williams, K. I. Welsh, and E. Ritz* 611

Detection of a protein–acetaldehyde adduct in the liver of rats fed alcohol chronically. *R. C. Lin, R. S. Smith, and L. Lumeng* 615

Peritubular cells are the site of erythropoietin synthesis in the murine hypoxic kidney. *C. Lacombe, J.-L. Da Silva, P. Bruneval, J.-G. Fournier, F. Wendling, N. Casadevall, J.-P. Camilleri, J. Bariety, B. Varet, and P. Tambourin* 620

Reduction of experimental canine myocardial reperfusion injury by a monoclonal antibody (anti-Mo1, anti-CD11b) that inhibits leukocyte adhesion. *P. J. Simpson, R. F. Todd III, J. C. Fantone, J. K. Mickelson, J. D. Griffin, and B. R. Lucchesi* 624

An initiator codon mutation in ornithine-δ-aminotransferase causing gyrate atrophy of the choroid and retina. *G. A. Mitchell, L. C. Brody, J. Looney, G. Steel, M. Suchanek, C. Dowling, V. Der Kaloustian, M. Kaiser-Kupfer, and D. Valle* 630

Regional adipocyte precursors in the female rat. Influence of ovarian factors. *G. R. Krakower, R. G. James, C. Arnaud, J. Etienne, R. H. Keller, and A. H. Kissebah* . . 641

Aneurysm of the rabbit common carotid artery induced by periarterial application of calcium chloride in vivo. *S. D. Gertz, A. Kurgan, and D. Eisenberg* 649

Amphipathic segment of the nicotinic receptor alpha subunit contains epitopes recognized by T lymphocytes in myasthenia gravis. *R. Hohlfeld, K. V. Toyka, L. L. Miner, S. L. Walgrave, and B. M. Conti-Tronconi* 657

Modulation by 1,25-dihydroxycholecalciferol of the acute change in cytosolic free calcium induced by thyrotropin-releasing hormone in GH_4C_1 pituitary cells. *J. C. Chisholm, S. Kim, and A. H. Tashjian, Jr.* 661

Bare lymphocyte syndrome. Consequences of absent class II major histocompatibility antigen expression for B lymphocyte differentiation and function. *L. T. Clement, S. Plaeger-Marshall, A. Haas, A. Saxon, and A. M. Martin* 669

Increased surface expression of CD11b/CD18 (Mac-1) is not required for stimulated neutrophil adherence to cultured endothelium. *N. B. Vedder and J. M. Harlan* . . 676

Epidermolysis bullosa acquisita antigen is the globular carboxyl terminus of type VII procollagen. *D. T. Woodley, R. E. Burgeson, G. Lunstrum, L. Bruckner-Tuderman, M. J. Reese, and R. A. Briggaman* 683

Effects of β-adrenergic blockade on verapamil-responsive and verapamil-irresponsive sustained ventricular tachycardias. *R. J. Sung, E. C. Keung, N. X. Nguyen, and E. C. Huycke* 688

Metabolic fate of arachidonic acid in hepatocytes of continuously endotoxemic rats. *E. B. Rodriguez de Turco and J. A. Spitzer* 700

Relationship between phospholipase C activation and prostaglandin E_2 and cyclic adenosine monophosphate production in rabbit tubular epithelial cells. Effects of angiotensin, bradykinin, and arginine vasopressin. *C. Welsh, G. Dubyak, and J. G. Douglas* 710

Stimulated arachidonate metabolism during foam cell transformation of mouse peritoneal macrophages with oxidized low density lipoprotein. *M. Yokode, T. Kita, Y. Kikawa, T. Ogorochi, S. Narumiya, and C. Kawai* . . . 720

Effects of sulfonylureas on the synthesis and secretion of plasminogen activator from bovine aortic endothelial cells. *B.-S. Kuo, G. Korner, and T. D. Bjornsson* 730

Sjögren-Larsson syndrome. Impaired fatty alcohol oxidation in cultured fibroblasts due to deficient fatty alcohol:nicotinamide adenine dinucleotide oxidoreductase activity. *W. B. Rizzo, A. L. Dammann, and D. A. Craft* 738

Energy thresholds that determine membrane integrity and injury in a renal epithelial cell line (LLC-PK_1). Relationships to phospholipid degradation and unesterified fatty acid accumulation. *M. A. Venkatachalam, Y. J. Patel, J. I. Kreisberg, and J. M. Weinberg* 745

Recombinant human tumor necrosis factor-α. Regulation of *N*-formylmethionylleucylphenylalanine receptor affinity and function on human neutrophils. *Y. H. Atkinson, W. A. Marasco, A. F. Lopez, and M. A. Vadas* 759

Vasopressin stimulation of adrenocorticotropin hormone (ACTH) in humans. In vivo bioassay of corticotropin-releasing factor (CRF) which provides evidence for CRF mediation of the diurnal rhythm of ACTH. *R. A. Salata, D. B. Jarrett, J. G. Verbalis, and A. G. Robinson* 766

Schistosoma japonicum egg antigen-specific T cell lines in man. Induction of helper and suppressor T cell lines and clones in vitro in a patient with chronic schistosomiasis japonica. *N. Ohta, T. Itagaki, M. Minai, K. Hirayama, and Y. Hosaka* 775

Investigation of the biological effects of anti-cell adhesive synthetic peptides that inhibit experimental metastasis of B16-F10 murine melanoma cells. *M. J. Humphries, K. M. Yamada, and K. Olden* 782

Enhancement of human granulopoiesis in vitro by biosynthetic insulin-like growth factor I/somatomedin C and human growth hormone. *S. Merchav, I. Tatarsky, and Z. Hochberg* 791

Serial evaluation of vasopressin release and thirst in human pregnancy. Role of human chorionic gonadotrophin in the osmoregulatory changes of gestation. *J. M. Davison, E. A. Shiells, P. R. Philips, and M. D. Lindheimer* 798

Identification of pemphigus vulgaris antigen extracted from normal human epidermis and comparison with pemphigus foliaceus antigen. *R. W. Eyre and J. R. Stanley* 807

Defect in biosynthesis of mitochondrial acetoacetyl-coenzyme A thiolase in cultured fibroblasts from a boy with 3-ketothiolase deficiency. *S. Yamaguchi, T. Orii, N. Sakura, S. Miyazawa, and T. Hashimoto* 813

In vitro adenylate cyclase–stimulating activity predicts the occurrence of humoral hypercalcemia of malignancy in nude mice. *E. C. Weir, K. L. Insogna, D. G. Brownstein, N. H. Bander, and A. E. Broadus* 818

Meal-stimulated release of methionine-enkephalin into the canine jejunal lumen. *S. R. Money, A. Petroianu, A. R. Gintzler, and B. M. Jaffe* 822

Use of human surfactant low molecular weight apoproteins in the reconstitution of surfactant biologic activity. *S. D. Revak, T. A. Merritt, E. Degryse, L. Stefani, M. Courtney, M. Hallman, and C. G. Cochrane* 826

Acetylated lipoproteins impair erythroid growth factor release from endothelial cells. *N. Dainiak, H. B. Warren, S. Kreczko, M. A. Riordan, L. Feldman, J. Lawler, A. M. Cohen, and P. F. Davies* 834

Fatty acid uptake by isolated rat heart myocytes represents a carrier-mediated transport process. *W. Stremmel* . . . 844

Complementary modes of action of tissue-type plasminogen activator and pro-urokinase by which their synergistic effect on clot lysis may be explained. *R. Pannell, J. Black, and V. Gurewich* 853

Binding sites in the rat brain for *Escherichia coli* S fimbriae associated with neonatal meningitis. *J. Parkkinen, T. K. Korhonen, A. Pere, J. Hacker, and S. Soinila* . . . 860

Properties of highly purified leukotriene C_4 synthase of guinea pig lung. *T. Yoshimoto, R. J. Soberman, B. Spur, and K. F. Austen* 866

Role of the direct and indirect pathways for glycogen synthesis in rat liver in the postprandial state. *M.-T. Huang and R. L. Veech* 872

Evidence supporting the identity in Graves' disease of thyroid-stimulating antibody and thyroid growth-promoting immunoglobulin G as assayed in FRTL5 cells. *M. Zakarija, S. Jin, and J. M. McKenzie* 879

Modulation of Na-K-ATPase activity in the mouse medullary thick ascending limb of Henle. Effects of mineralocorticoids and sodium. *E. B. Grossman and S. C. Hebert* 885

Deficiency of protein 4.2 in erythrocytes from a patient with a Coombs negative hemolytic anemia. Evidence for a role of protein 4.2 in stabilizing ankyrin on the membrane. *A. C. Rybicki, R. Heath, J. L. Wolf, B. Lubin, and R. S. Schwartz* 893

Thymus in myasthenia gravis. Isolation of T-lymphocyte lines specific for the nicotinic acetylcholine receptor from thymuses of myasthenic patients. *A. Melms, B. C. G. Schalke, Th. Kirchner, H. K. Müller-Hermelink, E. Albert, and H. Wekerle* 902

Multiple crm$^-$ mutations in familial hypercholesterolemia. Evidence for 13 alleles, including four deletions. *H. H. Hobbs, E. Leitersdorf, J. L. Goldstein, M. S. Brown, and D. W. Russell* 909

Differential effects of the complement peptides, C5a and C5a des Arg on human basophil and lung mast cell histamine release. *E. S. Schulman, T. J. Post, P. M. Henson, and P. C. Giclas* 918

Rapid Publications

Comparison of postreceptor effects of 1–34 human hypercalcemia factor and 1–34 human parathyroid hormone in rat osteosarcoma cells. *S. B. Rodan, M. Noda, G. Wesolowski, M. Rosenblatt, and G. A. Rodan* 924

Inhibition of diabetes in BB rats by virus infection. *T. Dyrberg, P. L. Schwimmbeck, and M. B. A. Oldstone* . . 928

Effects of a synthetic peptide of a parathyroid hormone–related protein on calcium homeostasis, renal tubular calcium reabsorption, and bone metabolism in vivo and in vitro in rodents. *A. J. P. Yates, G. E. Gutierrez, P. Smolens, P. S. Travis, M. S. Katz, T. B. Aufdemorte, B. F. Boyce, T. K. Hymer, J. W. Poser, and G. R. Mundy* . . . 932

A monoclonal antibody to the adherence-promoting leukocyte glycoprotein, CD18, reduces organ injury and improves survival from hemorrhagic shock and resuscitation in rabbits. *N. B. Vedder, R. K. Winn, C. L. Rice, E. Y. Chi, K.-E. Arfors, and J. M. Harlan* 939

Human adenine phosphoribosyltransferase deficiency. Demonstration of a single mutant allele common to the Japanese. *Y. Hidaka, S. A. Tarlé, S. Fujimori, N. Kamatani, W. N. Kelley, and T. D. Palella* 945

Antigen CD34$^+$ marrow cells engraft lethally irradiated baboons. *R. J. Berenson, R. G. Andrews, W. I. Bensinger, D. Kalamasz, G. Knitter, C. D. Buckner, and I. D. Bernstein* 951

Fasting enhances growth hormone secretion and amplifies the complex rhythms of growth hormone secretion in man. *K. Y. Ho, J. D. Veldhuis, M. L. Johnson, R. Furlanetto, W. S. Evans, K. G. M. M. Alberti, and M. O. Thorner* 968

Insulin-like growth factor I binding in hepatocytes from human liver, human hepatoma, and normal, regenerating, and fetal rat liver. *J. F. Caro, J. Poulos, O. Ittoop, W. J. Pories, E. G. Flickinger, and M. K. Sinha* 976

Evidence that parathyroid hormone–mediated calcium transport in rat brain synaptosomes is independent of cyclic adenosine monophosphate. *C. L. Fraser, P. Sarnacki, and A. Budayr* 982

Comparison of T cell receptor α, β, and γ gene rearrangement and expression in T cell acute lymphoblastic leukemia. *J. Hara, S. H. Benedict, E. Champagne, T. W. Mak, M. Minden, and E. W. Gelfand* 989

Inhibitory effects of volume expansion performed in vivo on transport in the isolated rabbit proximal tubule perfused in vitro. *T. O. Pitts, J. A. McGowan, T. C. Chen, M. Silverman, M. E. Rose, and J. B. Puschett* 997

Interaction of chloride and bicarbonate transport across the basolateral membrane of rabbit proximal straight tubule. Evidence for sodium coupled chloride/bicarbonate exchange. *S. Sasaki and N. Yoshiyama* 1004

Role of adhesive proteins in platelet tumor interaction in vitro and metastasis formation in vivo. *S. Karpatkin, E. Pearlstein, C. Ambrogio, and B. S. Coller* 1012

Attenuated release of biologically active luteinizing hormone in healthy aging men. *R. J. Urban, J. D. Veldhuis, R. M. Blizzard, and M. L. Dufau* 1020

Expression of the macrophage colony-stimulating factor and c-fms genes in human acute myeloblastic leukemia cells. *A. Rambaldi, N. Wakamiya, E. Vellenga, J. Horiguchi, M. K. Warren, D. Kufe, and J. D. Griffin* . . . 1030

Is atriopeptin a physiological or pathophysiological substance? Studies in the autoimmune rat. *J. E. Greenwald, M. Sakata, M. L. Michener, S. D. Sides, and P. Needleman* 1036

Exocytosis in normal anterior pituitary cells. Quantitative correlation between growth hormone release and the morphological features of exocytosis. *B. Draznin, R. Dahl, N. Sherman, K. E. Sussman, and L. A. Staehelin* 1042

Paradoxical glottic narrowing in patients with severe obstructive sleep apnea. *I. Rubinstein, A. S. Slutsky, N. Zamel, and V. Hoffstein* 1051

Induction of de novo bone formation in the beagle. A novel effect of aluminum. *L. D. Quarles, H. J. Gitelman, and M. K. Drezner* 1056

Epidermal growth factor-like, corneal wound healing substance in mouse tears. *O. Tsutsumi, A. Tsutsumi, and T. Oka* 1067

Hematopoietic microenvironment. Origin, lineage, and transplantability of the stromal cells in long-term bone marrow cultures from chimeric mice. *S. Perkins and R. A. Fleischman* 1072

Prostaglandin protection of human isolated gastric glands against indomethacin and ethanol injury. Evidence for direct cellular action of prostaglandin. *A. Tarnawski, T. Brzozowski, I. J. Sarfeh, W. J. Krause, T. R. Ulich, H. Gergely, and D. Hollander* 1081

Digestion and assimilation of proline-containing peptides by rat intestinal brush border membrane carboxypeptidases. Role of the combined action of angiotensin-converting enzyme and carboxypeptidase P. *M. Yoshioka, R. H. Erickson, and Y. S. Kim* 1090

Decreased proliferation, interleukin 2 synthesis, and interleukin 2 receptor expression are accompanied by decreased mRNA expression in phytohemagglutinin-stimulated cells from elderly donors. *J. E. Nagel, R. K. Chopra, F. J. Chrest, M. T. McCoy, E. L. Schneider, N. J. Holbrook, and W. H. Adler* 1096

Intracoronary infusion of dobutamine to patients with and without severe congestive heart failure. Dose-response relationships, correlation with circulating catecholamines, and effect of phosphodiesterase inhibition. *W. S. Colucci, A. R. Denniss, G. F. Leatherman, R. J. Quigg, P. L. Ludmer, J. D. Marsh, and D. F. Gauthier* 1103

Toluene diisocyanate increases airway responsiveness to substance P and decreases airway neutral endopeptidase. *D. Sheppard, J. E. Thompson, L. Scypinski, D. Dusser, J. A. Nadel, and D. B. Borson* 1111

Genetic linkage of two intragenic restriction fragment length polymorphisms with von Willebrand's disease type IIa. Evidence for a defect in the von Willebrand factor gene. *C. L. Verweij, R. Quadt, E. Briët, K. Dubbeldam, G. B. van Ommen, and H. Pannekoek* 1116

Decay-accelerating factor protects human tumor cells from complement-mediated cytotoxicity in vitro. *N.-K. V. Cheung, E. I. Walter, W. H. Smith-Mensah, W. D. Ratnoff, M. L. Tykocinski, and M. E. Medof* 1122

Specific amino acid (L-arginine) requirement for the microbiostatic activity of murine macrophages. *D. L. Granger, J. B. Hibbs, Jr., J. R. Perfect, and D. T. Durack* 1129

Ethanol causes acute inhibition of carbohydrate, fat, and protein oxidation and insulin resistance. *J. J. Shelmet, G. A. Reichard, C. L. Skutches, R. D. Hoeldtke, O. E. Owen, and G. Boden* 1137

Role of vasoactive intestinal polypeptide in the internal anal sphincter relaxation of the opossum. *S. Nurko and S. Rattan* 1146

Glucose and carbachol generate 1,2-diacylglycerols by different mechanisms in pancreatic islets. *B. Peter-Riesch, M. Fathi, W. Schlegel, and C. B. Wollheim* 1154

Interleukin 1 induces a shock-like state in rabbits. Synergism with tumor necrosis factor and the effect of cyclooxygenase inhibition. *S. Okusawa, J. A. Gelfand, T. Ikejima, R. J. Connolly, and C. A. Dinarello* 1162

Alterations in cation homeostasis in cultured chick ventricular cells during and after recovery from adenosine triphosphate depletion. *H. Ishida, O. Kohmoto, J. H. B. Bridge, and W. H. Barry* 1173

Electrical and mechanical activity in the human lower esophageal sphincter during diaphragmatic contraction. *R. K. Mittal, D. F. Rochester, and R. W. McCallum* . . . 1182

^{31}P nuclear magnetic resonance studies of high energy phosphates and pH in human muscle fatigue. Comparison of aerobic and anaerobic exercise. *R. G. Miller, M. D. Boska, R. S. Moussavi, P. J. Carson, and M. W. Weiner* 1190

Abnormal cation transport in uremia. Mechanisms in adipocytes and skeletal muscle from uremic rats. *W. Druml, R. A. Kelly, R. C. May, and W. E. Mitch* 1197

Ouabain-insensitive K–adenosine triphosphatase in distal nephron segments of the rabbit. *L. C. Garg and N. Narang* 1204

Mechanism of Hb F stimulation by S-stage compounds. In vitro studies with bone marrow cells exposed to 5-azacytidine, Ara-C, or hydroxyurea. *R. Galanello, G. Stamatoyannopoulos, and Th. Papayannopoulou* 1209

Characterization of the thyroid microsomal antigen, and its relationship to thyroid peroxidase, using monoclonal antibodies. *L. Portmann, F. W. Fitch, W. Havran, N. Hamada, W. A. Franklin, and L. J. DeGroot* 1217

Vascular transport of insulin to rat cardiac muscle. Central role of the capillary endothelium. *R. S. Bar, M. Boes, and A. Sandra* 1225

Perinatal hypophosphatasia: tissue levels of vitamin B6 are unremarkable despite markedly increased circulating concentrations of pyridoxal-5′-phosphate. Evidence for an ectoenzyme role for tissue-nonspecific alkaline phosphatase. *M. P. Whyte, J. D. Mahuren, K. N. Fedde, F. S. Cole, E. R. B. McCabe, and S. P. Coburn* 1234

Reactive oxygen species during ischemia–reflow injury in isolated perfused rat liver. *H. Jaeschke, C. V. Smith, and J. R. Mitchell* 1240

Lymphocytes expressing type 3 complement receptors proliferate in response to interleukin 2 and are the precursors of lymphokine-activated killer cells. *J. D. Gray and D. A. Horwitz* 1247

Mechanisms whereby exogenous adenine nucleotides improve rabbit renal proximal function during and after anoxia. *L. J. Mandel, T. Takano, S. P. Soltoff, and S. Murdaugh* 1255

Epinephrine facilitates neurogenic vasoconstriction in humans. *J. S. Floras, P. E. Aylward, R. G. Victor, A. L. Mark, and F. M. Abboud* 1265

Electrogenic sodium absorption in rabbit cecum in vitro. *J. H. Sellin, H. Oyarzabal, and E. J. Cragoe* 1275

Monoclonal antibody against the platelet glycoprotein (GP) IIb/IIIa receptor prevents coronary artery reocclusion after reperfusion with recombinant tissue-type plasminogen activator in dogs. *T. Yasuda, H. K. Gold, J. T. Fallon, R. C. Leinbach, J. L. Guerrero, L. E. Scudder, M. Kanke, D. Shealy, M. J. Ross, D. Collen, and B. S. Coller* 1284

Rapid Publications

Proposed heparin binding site in antithrombin based on arginine 47. A new variant Rouen-II, 47 Arg to Ser. *J. Y. Borg, M. C. Owen, C. Soria, J. Soria, J. Caen, and R. W. Carrell* 1292

Xanthine oxidase produces hydrogen peroxide which contributes to reperfusion injury of ischemic, isolated, perfused rat hearts. *J. M. Brown, L. S. Terada, M. A. Grosso, G. J. Whitmann, S. E. Velasco, A. Patt, A. H. Harken, and J. E. Repine* 1297

Fibronectin degradation products containing the cytoadhesive tetrapeptide stimulate human neutrophil degranulation. *Y. T. Wachtfogel, W. Abrams, U. Kucich, G. Weinbaum, M. Schapira, and R. W. Colman* . . . 1310

Impaired carbohydrate metabolism of polymorphonuclear leukocytes in glycogen storage disease Ib. *N. Bashan, Y. Hagai, R. Potashnik, and S. W. Moses* 1317

Adenosine deaminase (ADA) deficiency due to deletion of the ADA gene promoter and first exon by homologous recombination between two Alu elements. *M. L. Markert, J. J. Hutton, D. A. Wiginton, J. C. States, and R. E. Kaufman* 1323

Bowel necrosis induced by tumor necrosis factor in rats is mediated by platelet-activating factor. *X.-m. Sun and W. Hsueh* 1328

Uptake of cholesterol-rich remnant lipoproteins by human monocyte-derived macrophages is mediated by low density lipoprotein receptors. *C. Koo, M. E. Wernette-Hammond, Z. Garcia, M. J. Malloy, R. Uauy, C. East, D. W. Bilheimer, R. W. Mahley, and T. L. Innerarity* 1332

Physical and genetic mapping of the *Salmonella dublin* virulence plasmid pSDL2. Relationship to plasmids from other *Salmonella* strains. *P. R. Beninger, G. Chikami, K. Tanabe, C. Roudier, J. Fierer, and D. G. Guiney* . . . 1341

Clearance and early hydrolysis of atrial natriuretic factor in vivo. Structural analysis of cleavage sites and design of an analogue that inhibits hormone cleavage. *C. L. Condra, E. A. Leidy, P. Bunting, C. D. Colton, R. F. Nutt, M. Rosenblatt, and J. W. Jacobs* 1348

Adherence of human basophils to cultured umbilical vein endothelial cells. *B. S. Bochner, P. T. Peachell, K. E. Brown, and R. P. Schleimer* 1355

Use of laminar flow and unstirred layer models to predict intestinal absorption in the rat. *M. D. Levitt, J. M. Kneip, and D. G. Levitt* 1365

Endocytotic uptake, processing, and retroendocytosis of human biosynthetic proinsulin by rat fibroblasts transfected with the human insulin receptor gene. *J. R. Levy, A. Ullrich, and J. M. Olefsky* 1370

Activation of protein breakdown and prostaglandin E_2 production in rat skeletal muscle in fever is signaled by a macrophage product distinct from interleukin 1 or other known monokines. *A. L. Goldberg, I. C. Kettelhut, K. Furuno, J. M. Fagan, and V. Baracos* 1378

Tumor necrosis factor can induce fever in rats without activating protein breakdown in muscle or lipolysis in adipose tissue. *I. C. Kettelhut and A. L. Goldberg* . . . 1384

Phenotypic and functional characterization of human cytolytic T cells lacking expression of CD5. *B. E. Bierer, Y. Nishimura, S. J. Burakoff, and B. R. Smith* 1390

Influence on immunoreactive folate-binding proteins of extracellular folate concentration in cultured human cells. *M. A. Kane, P. C. Elwood, R. M. Portillo, A. C. Antony, V. Najfeld, A. Finley, S. Waxman, and J. F. Kolhouse* 1398

Minimal chronic hyperglycemia is a critical determinant of impaired insulin secretion after an incomplete pancreatectomy. *J. L Leahy, S. Bonner-Weir, and G. C. Weir* 1407

Interleukin 1 stimulates T lymphocytes to produce granulocyte-monocyte colony-stimulating factor. *F. Herrmann, W. Oster, S. C. Meuer, A. Lindemann, and R. H. Mertelsmann* 1415

Pulmonary alveolar type II epithelial cells synthesize and secrete proteins of the classical and alternative complement pathways. *R. C. Strunk, D. M. Eidlen, and R. J. Mason* 1419

Requirements for the construction of antibody heterodimers for the direction of lysis of tumors by human T cells. *C. F. Scott, Jr., W. A. Blättler, J. M. Lambert, R. S. Kalish, C. Morimoto, and S. F. Schlossman* 1427

Pathogenesis of *Campylobacter fetus* infections. Failure of encapsulated *Campylobacter fetus* to bind C3b explains serum and phagocytosis resistance. *M. J. Blaser, P. F. Smith, J. E. Repine, and K. A. Joiner* 1434

Acquired deficiencies of protein S. Protein S activity during oral anticoagulation, in liver disease, and in disseminated intravascular coagulation. *A. D'Angelo, S. Vigano-D'Angelo, C. T. Esmon, and P. C. Comp* . . . 1445

Bicarbonate absorption stimulates active calcium absorption in the rat proximal tubule. *K. Bomsztyk and M. B. Calalb* 1455

Role of the hepatic artery in canalicular bile formation by the perfused rat liver. A multiple indicator dilution study. *J. Reichen* 1462

Structure of platelet glycoprotein IIIa. A common subunit for two different membrane receptors. *A. B. Zimrin, R. Eisman, G. Vilaire, E. Schwartz, J. S. Bennett, and M. Poncz* 1470

Dual mechanisms of regulation of type I iodothyronine 5'-deiodinase in the rat kidney, liver, and thyroid gland. Implications for the treatment of hyperthyroidism with radiographic contrast agents. *D. L. St. Germain* 1476

Coregulation of NADPH oxidase activation and phosphorylation of a 48-kD protein(s) by a cytosolic factor defective in autosomal recessive chronic granulomatous disease. *S. E. Caldwell, C. E. McCall, C. L. Hendricks, P. A. Leone, D. A. Bass, and L. C. McPhail* 1485

Activation of T lymphocytes by immobilized monoclonal antibodies to CD3. Regulatory influences of monoclonal antibodies to additional T cell surface determinants. *T. D. Geppert and P. E. Lipsky* 1497

Transcriptional and posttranscriptional regulation of tumor necrosis factor gene expression in human monocytes. *E. Sariban, K. Imamura, R. Luebbers, and D. Kufe* 1506

Complete protein sequences of the variable regions of the cloned heavy and light chains of a human anti–cytomegalovirus antibody reveal a striking similarity to human monoclonal rheumatoid factors of the Wa idiotypic family. *M. M. Newkirk, H. Gram, G. F. Heinrich, L. Östberg, J. D. Capra, and R. L. Wasserman* 1511

Role of group-specific component (vitamin D binding protein) in clearance of actin from the circulation in the rabbit. *P. J. Goldschmidt-Clermont, H. Van Baelen, R. Bouillon, T. E. Shook, M. H. Williams, A. E. Nel, and R. M. Galbraith* 1519

Role of glucose transporters in the cellular insulin resistance of type II non–insulin-dependent diabetes mellitus. *W. T. Garvey, T. P. Huecksteadt, S. Matthaei, and J. M. Olefsky* 1528

Thrombospondin-induced adhesion of human keratinocytes. *J. Varani, B. J. Nickoloff, B. L. Riser, R. S. Mitra, K. O'Rourke, and V. M. Dixit* 1537

Hormonal control of substrate cycling in humans. *H. Miyoshi, G. I. Shulman, E. J. Peters, M. H. Wolfe, D. Elahi, and R. R. Wolfe* 1545

Xanthine oxidase–derived hydrogen peroxide contributes to ischemia reperfusion–induced edema in gerbil brains. *A. Patt, A. H. Harken, L. K. Burton, T. C. Rodell, D. Piermattei, W. J. Schorr, N. B. Parker, E. M. Berger, I. R. Horesh, L. S. Terada, S. L. Linas, J. C. Cheronis, and J. E. Repine* 1556

Skeletal muscle glycolysis, oxidation, and storage of an oral glucose load. *D. Kelley, A. Mitrakou, H. Marsh, F. Schwenk, J. Benn, G. Sonnenberg, M. Arcangeli, T. Aoki, J. Sorensen, M. Berger, P. Sonksen, and J. Gerich* . . . 1563

Effects of basic fibroblast growth factor on bone formation in vitro. *E. Canalis, M. Centrella, and T. McCarthy* 1572

Phorbol ester and A23187 have additive but mechanistically separate effects on vasopressin action in rabbit collecting tubule. *Y. Ando, H. R. Jacobson, and M. D. Breyer* 1578

Indomethacin secretion in the isolated perfused proximal straight rabbit tubule. Evidence for two parallel transport mechanisms. *D. de Zeeuw, H. R. Jacobson, and D. C. Brater* 1585

Separate transport systems for biliary secretion of sulfated and unsulfated bile acids in the rat. *F. Kuipers, M. Enserink, R. Havinga, A. B. M. van der Steen, M. J. Hardonk, J. Fevery, and R. J. Vonk* 1593

Identification and isolation of a platelet GPIb-like protein in human umbilical vein endothelial cells and bovine aortic smooth muscle cells. *A. S. Asch, B. Adelman, M. Fujimoto, and R. L. Nachman* 1600

Pathogenetic relevance of HLA class II expressing thyroid follicular cells in nontoxic goiter and in Graves' disease. *B. Grubeck-Loebenstein, M. Londei, C. Greenall, K. Pirich, H. Kassal, W. Waldhäusl, and M. Feldmann* . . 1608

Regulation of intestinal and hepatic apoprotein synthesis after chronic fat and cholesterol feeding. *M. F. Go, G. Schonfeld, B. Pfleger, T. G. Cole, N. L. Sussman, and D. H. Alpers* 1615

Complete nucleotide and deduced amino acid sequences of human and murine preprocathepsin L. An abundant transcript induced by transformation of fibroblasts. *L. J. Joseph, L. C. Chang, D. Stamenkovich, and V. P. Sukhatme* 1621

Ischemic acute renal failure and antioxidant therapy in the rat. The relation between glomerular and tubular dysfunction. *J. E. Bird, K. Milhoan, C. B. Wilson, S. G. Young, C. A. Mundy, S. Parthasarathy, and R. C. Blantz* 1630

Exaggerated triglyceride accretion in human preadipocyte-murine renal line hybrids composed of cells from massively obese subjects. *P. E. Le Blanc, D. A. K. Roncari, D. I. Hoar, and A.-M. Adachi* 1639

Rapid Publications

Proteolytic inactivation of alpha-1-proteinase inhibitor by a neutrophil metalloproteinase. *P. E. Desrochers and S. J. Weiss* 1646

May Author Index 1651

Contents

The Journal of Clinical Investigation
June 1988, Volume 81, Number 6

Perspectives

Lowering cholesterol, 1988. Rationale, mechanisms, and means. *R. J. Havel* 1653

Regular Articles

Aluminum inhibits erythropoiesis in vitro. *J. Mladenovic* 1661

Passive immunoprophylaxis with specific monoclonal antibody confers partial protection against *pneumocystis carinii* pneumonitis in animal models. *F. Gigliotti and W. T. Hughes* 1666

Polymerization of sickle cell hemoglobin at arterial oxygen saturation impairs erythrocyte deformability. *M. A. Green, C. T. Noguchi, A. J. Keidan, S. S. Marwah, and J. Stuart* 1669

Physiological role for cholecystokinin in reducing postprandial hyperglycemia in humans. *R. A. Liddle, R. J. Rushakoff, E. T. Morita, L. Beccaria, J. D. Carter, and I. D. Goldfine* 1675

In vivo regulation of glycolytic and gluconeogenic enzyme gene expression in newborn rat liver. *S. Lyonnet, C. Coupé, J. Girard, A. Kahn, and A. Munnich* 1682

Genetic heterogeneity among patients with methylcobalamin deficiency. Definition of two complementation groups, cblE and cblG. *D. Watkins and D. S. Rosenblatt* 1690

Effects of thyroid hormones on skeletal muscle bioenergetics. In vivo phosphorus-31 magnetic resonance spectroscopy study of humans and rats. *Z. Argov, P. F. Renshaw, B. Boden, A. Winokur, and W. J. Bank* . . . 1695

Preservation of the glomerular capillary ultrafiltration coefficient during rat nephrotoxic serum nephritis by a specific leukotriene D_4 receptor antagonist. *K. F. Badr, G. F. Schreiner, M. Wasserman, and I. Ichikawa* . . . 1702

Genetic heterogeneity in the cerebrohepatorenal (Zellweger) syndrome and other inherited disorders with a generalized impairment of peroxisomal functions. A study using complementation analysis. *S. Brul, A. Westerveld, A. Strijland, R. J. A. Wanders, A. W. Schram, H. S. A. Heymans, R. B. H. Schutgens, H. van den Bosch, and J. M. Tager* 1710

The U2 small nuclear ribonucleoprotein particle as an autoantigen. Analysis with sera from patients with overlap syndromes. *J. Craft, T. Mimori, T. L. Olsen, and J. A. Hardin* 1716

Effects of decreasing the frequency of gonadotropin-releasing hormone stimulation on gonadotropin secretion in gonadotropin-releasing hormone-deficient men and perifused rat pituitary cells. *J. S. Finkelstein, T. M. Badger, L. St. L. O'Dea, D. I. Spratt, and W. F. Crowley* 1725

Platelet storage results in a redistribution of glycoprotein Ib molecules. Evidence for a large intraplatelet pool of glycoprotein Ib. *A. D. Michelson, B. Adelman, M. R. Barnard, E. Carroll, and R. I. Handin* 1734

Clostridium difficile toxin A stimulates intracellular calcium release and chemotactic response in human granulocytes. *C. Pothoulakis, R. Sullivan, D. A. Melnick, G. Triadafilopoulos, A.-S. Gadenne, T. Meshulam, and J. T. LaMont* 1741

Isolation and partial characterization of melanoma-associated antigens identified by autologous antibody. *D. R. Vlock, D. Scalise, N. Meglin, J. M. Kirkwood, and B. Ballou* 1746

Videomicroscopic demonstration of defective cholinergic arteriolar vasodilation in atherosclerotic rabbit. *H. Yamamoto, C. Bossaller, J. Cartwright Jr., and P. D. Henry* 1752

Regulation of glucose turnover during exercise in pancreatectomized, totally insulin-deficient dogs. Effects of β-adrenergic blockade. *O. Bjorkman, P. Miles, D. Wasserman, L. Lickley, and M. Vranic* 1759

Vitamin D supply to the rat fetus and neonate. *M. R. Clements and D. R. Fraser* 1768

Elastase regulates the synthesis of its inhibitor, α_1-proteinase inhibitor, and exaggerates the defect in homozygous PiZZ α_1 PI deficiency. *D. H. Perlmutter, J. Travis, and P. I. Punsal* 1774

Thermic effect of food in lean and obese men. *D. A. D'Alessio, E. C. Kavle, M. A. Mozzoli, K. J. Smalley, M. Polansky, Z. V. Kendrick, L. R. Owen, M. C. Bushman, G. Boden, and O. E. Owen* 1781

Effect of bone marrow transplantation on enzyme levels and clinical course in the neurologically affected twitcher mouse. *P. M. Hoogerbrugge, B. J. H. M. Poorthuis, A. E. Romme, J. J. P. van de Kamp, G. Wagemaker, and D. W. van Bekkum* 1790

Endothelium dependent relaxation is independent of arachidonic acid release. *P. G. Milner, N. J. Izzo, Jr., J. Saye, A. L. Loeb, R. A. Johns, and M. J. Peach* 1795

Age and bone mass as predictors of fracture in a prospective study. *S. L. Hui, C. W. Slemenda, and C. C. Johnston, Jr.* 1804

T cell receptor beta chain gene rearrangement shared by murine T cell lines derived from a site of autoimmune inflammation. *S. J. Padula, D. C. Sgroi, E. G. Lingenheld, J. T. Love, Jr., C.-H. J. Chou, and R. B. Clark* 1810

1,25-dihydroxyvitamin D_3 modulates the expression of a lymphokine (granulocyte-macrophage colony-stimulating factor) posttranscriptionally. *A. Tobler, C. W. Miller, A. W. Norman, and H. P. Koeffler* 1819

Phenotypic conversion of T lymphoblastic lymphoma to acute biphenotypic leukemia composed of lymphoblasts and myeloblasts. Molecular genetic evidence of the same clonal origin. *T. Nosaka, H. Ohno, S. Doi, S. Fukuhara, H. Miwa, K. Kita, S. Shirakawa, T. Honjo, and M. Hatanaka* 1824

Modulation of the in vitro candidacidal activity of human neutrophil defensins by target cell metabolism and divalent cations. *R. I. Lehrer, T. Ganz, D. Szklarek, and M. E. Selsted* 1829

Impaired cardiac muscarinic receptor function in dogs with heart failure. *D. E. Vatner, D. L. Lee, K. R. Schwarz, J. P. Longabaugh, A. M. Fujii, S. F. Vatner, and C. J. Homcy* 1836

Modulating role for thromboxane in the tubuloglomerular feedback response in the rat. *W. J. Welch and C. S. Wilcox* 1843

Effect of age on myocardial adaptation to volume overload in the rat. *S. Isoyama, W. Grossman, and J. Y. Wei* 1850

SP-40,40, a newly identified normal human serum protein found in the C5b-9 complex of complement and in the immune deposits in glomerulonephritis. *B. F. Murphy, L. Kirszbaum, I. D. Walker, and A. J. F. d'Apice* 1858

Specific correction of impaired acid hydrolase secretion in storage pool-deficient platelets by adenosine diphosphate. *B. Lages, C. A. Dangelmaier, H. Holmsen, and H. J. Weiss* 1865

Secretion of bicarbonate by rat distal tubules in vivo. Modulation by overnight fasting. *D. Z. Levine, M. Iacovitti, L. Nash, and D. Vandorpe* 1873

Calcium and cylic adenosine monophosphate as second messengers for vasopressin in the rat inner medullary collecting duct. *R. A. Star, H. Nonoguchi, R. Balaban, and M. A. Knepper* 1879

Activation of monocytes by interferon-gamma has no effect on the level or affinity of the nicotinamide adenine dinucleotide-phosphate oxidase and on agonist-dependent superoxide formation. *M. Thelen, M. Wolf, and M. Baggiolini* 1889

Bradykinin-activated membrane-associated phospholipase C in Madin-Darby canine kidney cells. *D. Portilla, J. Morrissey, and A. R. Morrison* 1896

Effects of acid-base variables on ion transport in rat colon. *D. S. Goldfarb, R. W. Egnor, and A. N. Charney* 1903

Formation of Factor V_a by atherosclerotic rabbit aorta mediates Factor X_a-catalyzed prothrombin activation. *G. M. Rodgers, W. H. Kane, and R. E. Pitas* 1911

Vasoactive intestinal polypeptide mediates cholecystokinin-induced relaxation of the sphincter of Oddi. *J. W. Wiley, T. M. O'Dorisio, and C. Owyang* . 1920

Participation of tumor necrosis factor in the mediation of gram negative bacterial lipopolysaccharide-induced injury in rabbits. *J. C. Mathison, E. Wolfson, and R. J. Ulevitch* 1925

Decrease in the transmembrane sodium activity gradient in ferret papillary muscle as a prerequisite to the calcium paradox. *T. Guarnieri* 1938

Increased leukotriene B_4 synthesis in immune injured rat glomeruli. *M. A. Rahman, M. Nakazawa, S. N. Emancipator, and M. J. Dunn* 1945

Mild type II diabetes markedly increases glucose cycling in the postabsorptive state and during glucose infusion irrespective of obesity. *S. Efendic, S. Karlander, and M. Vranic* 1953

Synthesis of atrial natriuretic polypeptide in human failing hearts. Evidence for altered processing of atrial natriuretic polypeptide precursor and augmented synthesis of β-human ANP *A. Sugawara, K. Nakao, N. Morii, T. Yamada, H. Itoh, S. Shiono, Y. Saito, M. Mukoyama, H. Arai, K. Nishimura, K. Obata, H. Yasue, T. Ban, and H. Imura* 1962

Nonbinding inhibitory antiinsulin receptor antibodies. A new type of autoantibodies in human diabetes. *G. Boden, Y. Fujita-Yamaguchi, R. Shimoyama, J. J. Shelmet, L. Tappy, I. Rezvani, and O. E. Owen* 1971

Desensitization of the insulin receptor by antireceptor antibodies in vivo is blocked by treatment of mice with β-adrenergic agonists. *D. Elias, M. Rapoport, I. R. Cohen, and Y. Shechter* 1979

Human eosinophils have prolonged survival, enhanced functional properties, and become hypodense when exposed to human interleukin 3. *M. E. Rothenberg, W. F. Owen, Jr., D. S. Silberstein, J. Woods, R. J. Soberman, K. F. Austen, and R. L. Stevens* 1986

Rapid Publications

Chromosomal localization of the genes for the vitronectin and fibronectin receptors α subunits and for platelet glycoproteins IIb and IIIa. *D. M. Sosnoski, B. S. Emanuel, A. L. Hawkins, P. van Tuinen, D. H. Ledbetter, R. L. Nussbaum, F.-T. Kaos, E. Schwartz, D. Phillips, J. S. Bennett, L. A. Fitzgerald, and M. Poncz* 1993

Transient suppression of clonal hemopoiesis associated with pregnancy in a patient with a myeloproliferative disorder. *A. G. Turhan, R. K. Humphries, J. D. Cashman, D. A. Cuthbert, C. J. Eaves, and A. C. Eaves* 1999

Premature termination of variable gene rearrangement in B lymphocytes from X-linked agammaglobulinemia. *J. Schwaber and R. H. Chen* 2004

Identification of transcripts encoding a parathyroid hormone-like peptide in messenger RNAs from a variety of human and animal tumors associated with humoral hypercalcemia of malignancy. *K. Ikeda, M. Mangin, B. E. Dreyer, A. C. Webb, J. T. Posillico, A. F. Stewart, N. H. Bander, E. C. Weir, K. L. Insogna, and A. E. Broadus* 2010

Dietary regulation of rat intestinal cholecystokinin gene expression. *R. A. Liddle, J. D. Carter, and A. R. McDonald* 2015

Defective processing of insulin-receptor precursor in cultured lymphocytes from a patient with extreme insulin resistance. *T. Kakehi, A. Hisatomi, H. Kuzuya, Y. Yoshimasa, M. Okamoto, K. Yamada, H. Nishimura, A. Kosaki, H. Nawata, F. Umeda, H. Ibayashi, and H. Imura* 2020

Herpes gestationis autoantibodies recognize a 180-kD human epidermal antigen. *L. H. Morrison, R. S. Labib, J. J. Zone, L. A. Diaz, and G. J. Anhalt* 2023
